MATH2922	Semester 1 2019
Linear and Abstract Algebra (Advanced)	
2 streams combined	
Giulian Wiggins	
Mathematics and Statistics Academic Operations	n = 8
Science	enrolled = 51 response = 16%

**q1** My interest in the subject matter was stimulated during tutorials.

				0			
_	N	%	value				
-	1	12.5	5	Strongly Agree			
	5	62.5	4	Agree			
	2	25.0	3	Neutral			
	0	0.0	2	Disagree I			
	0	0.0	1	Strongly Disagree			
	0	Missing		0%	50%		100%
		0			mean = 3.88	SD = 0.60	n = 8

Please explain the reasons for your rating.

· Giulian was good to talk to and I enjoyed discussions with him.

• The tutorials are well thought out and achievable to finish in the given time. They are thought provoking and stimulating.

· Opened me to the higher abstractions of algebra without being overly loquacious.

· I didn't think that the tutorials themselves were that interesting.

**q2** The tutor took account of students' existing knowledge and level of understanding.

_	N	%	value			
_	2	33.3	5	Strongly Agree

	2	Missing		0%	50% 100%	
		_			mean = 4.33 SD = 0.47 n = 6	

Please explain the reasons for your rating.

Strongly Agree

Strongly Agree

Agree

Neutral

· Yes, he always explained things in a way that was easy to understand and never told us the full answer but let us come to it ourselves, just helping out with hints

· ditto

Agree

· See above.

· He could teach well regardless of whether I understood the concept or not.
